

Appendix F: Funding by County

Introduction

The Aging and Disability Services Division (ADSD) receives both federal and state funding, to grant for the provision of aging services. Each funding source specifies the purpose of the funding and what types of services may be funded. Additionally and due to flat and reduced funding, as well as a growing older adult population, the Division has established Priority Core Services. The priority is based on the critical nature of certain services in sustaining frail older adults for independent living in their homes and community. These factors are discussed below, as a foundation to better understand the “Funding by County,” which begins on page 5.

Federal Funding Sources

Older Americans Act (OAA) Title III-B – Social Supportive Services

Title III-B funding is used for ADSD-designated “Core” social supportive services, such as: Transportation, Homemaker, Case Management, Respite Care, Adult Day Care, Personal Emergency Response Systems and Legal Assistance. Other services that may be provided are listed in OAA Part B, Section 321. However, with limited funding, ADSD limits funding to Core services, determined as most needed to prevent institutionalization. Persons eligible are age 60 or older.

OAA Title III-C – Nutrition Services

Nutrition services are separated into two distinct components: C1 and C2.

C1 funds are allocated to provide meals within established dietary guidelines and food safety standards, to older adults in congregate settings, which are usually senior centers. Persons eligible are:

- Age 60 or older and their spouses, who may be less than age 60.
- Individuals with disabilities, who have not attained the age of 60, but reside in housing facilities occupied primarily by older individuals at which a congregate meal site has been established.
- Individuals providing essential volunteer service during meal hours at a congregate setting.
- Adults with disabilities who reside at home with an eligible older individual, who come into the congregate setting with or without that individual.

C2 funds are allocated to deliver meals to individuals, age 60 and older, who are homebound due to illness, disability, or geographic isolation and cannot attend a congregate meal site. Also included are their spouses, and individuals with disabilities, who reside with eligible individuals age 60 and older. Homebound participants receive nutritious meals along with beneficial

nutrition education. The program also ensures that homebound meal drivers verify the wellbeing of clients at the time meals are delivered, as meals must be delivered in person to the client.

OAA Title III-D – Disease Prevention and Health Promotion Services

Title III-D funds evidence-based health promotion and disease prevention programs, which are interventions that educate participants about their health conditions, how to manage them, and/or ways to adopt healthy behaviors to enhance their overall quality of life. These evidence-based programs provide education and tools that empower older adults to manage their health, thereby reducing health care utilization and costs associated with their health condition. An example of an evidenced-based program is the Stanford-model Chronic Disease Self Management Program.

The Administration on Aging (AoA) and Older Americans Act (OAA) Title III-D set the criteria and authorize funding for evidence-based health promotion and disease prevention programs for individuals age 60 and older. Beginning October 1, 2016, all evidenced-based, OAA Title III-D funded programs, must meet the highest level of evidenced-based criteria, per the following criteria.

- Proven effective with older adult population, using Experimental or Quasi-Experimental Design; and
- Full translation has occurred in one or more community sites; and
- Published in a peer-review journal; and
- Proven effective with the older adult population, using some form of a control condition (e.g., pre-post study, case control design, etc.); and
- Demonstrated through evaluation to be effective for improving the health and wellbeing of, or reducing disease, disability and/or injury among older adults.

OAA Title III-E – National Family Caregiver Support Program

Title III-E funds family caregiver support services, which are a cluster of services intended specifically for informal caregivers of any age who care for adults age 60 and older, and/or grandparents or other relatives, age 55 or older, caring for a child, age 18 or younger. These services may include:

- Counseling/Support Groups/Caregiver Training
- Respite Care
- Supplemental Services, with up to 10 percent of III-E funds
- Access Assistance and Information Services

OAA Nutrition Services Incentive Program

The Nutrition Services Incentive Program (NSIP) provides grants to states, territories and eligible tribal organizations to support Congregate and Home-Delivered Nutrition Programs by providing an incentive to serve more meals. States, territories and eligible tribal organizations can choose to receive their grant as cash, commodities (food) or a combination of cash and commodities. These grants are based on the number of Title III-C1 and C2 meals served in the year prior to the NSIP grant distribution. The more meals served, the greater the grant, which is the incentive. (OAA, section 311)

OAA Title IV Activities for Health, Independence and Longevity

Title IV grants are discretionary, in that they are made available by the Administration for Community Living (ACL), through competitive grant applications. The purpose of these grants and their activities are: to expand the nation's knowledge and understanding of the older population and the aging process; to design, test and promote the use of innovative ideas and best practices in programs and services for older individuals; to help meet the needs for trained personnel in the field of aging; and to increase awareness of citizens of all ages of the need to assume personal responsibility for their longevity.

ADSD applies for these grants and has been fortunate with a number of awards, which have enhanced opportunities for older adult Nevadans to improve their well being and available programming. Examples of grants ACL has awarded to ADSD, include: the Alzheimer's Disease Supportive Services Program (ADSSP), the Lifespan Respite Grant, the Chronic Disease Self Management Program Grant, and the Chronic Disease Self Management Education Grant.

OAA Title V: Senior Community Service Employment Program

The Senior Community Service Employment Program (SCSEP) is a community service and work-based job training program for older Americans. Authorized by the Older Americans Act, the program provides training for low-income, unemployed seniors. Participants also have access to employment assistance through American Job Centers. For more information on SCSEP, please refer to Appendix C, page 12, item 5.

State of Nevada Funding Sources

Independent Living Grants (NRS 439.630)

ADSD has been authorized under Nevada Revised Statute (NRS) 439.630 to award its share of the Fund for a Healthy Nevada, derived from Nevada's share of 1998 Master Tobacco Settlement Funds, to governmental, private and non-profit agencies. These funds are to be used for providing services in Nevada to individuals age 60 and older, or as age or eligibility is otherwise established below, to assist with independent living, including programs that provide:

- (1) Respite care or relief to informal caregivers, including, without limitation, informal caregivers for persons of any age who are living with Alzheimer's disease or other dementia;
- (2) Transportation to new or existing services to assist senior citizens in living independently; and/or
- (3) Care in the home that enables senior citizens to remain at home instead of in institutional care.

State Volunteer Grants

State Volunteer Grants are funded by Nevada General Fund to provide trained, volunteer supportive and assistive services for older individuals in their own homes, to help them maintain their independence. Services are provided in accordance with a person-centered-care plan, developed jointly between the program staff and the client or his/her caregiver. Individuals needing services are typically alone and frail, chronically ill, homebound, and/or dependent on a primary caregiver. Examples of services are Senior Companion, Respite Care, and Volunteer

Care and Assistance – which includes one or more of the following, depending on the service plan: assistance with meals and grocery shopping; escorted transportation; food/household products distribution; information, assistance and advocacy; and home management and environment.

Funding for these grants not only helps with direct services for frail older adults, but also serves as match for Senior Corps program grants from the Corporation for National and Community Service, which brings additional revenue into Nevada. Senior Corps programs include: Senior Companion Programs, Retired Senior and Volunteer Programs (RSVP), and Foster Grandparent Programs.

State Transportation Grants

This program awards Nevada General Fund grants to providers of transportation services in Rural Nevada. This funding can be used to provide transportation services and as state match for federal transportation funds they receive.

Priority Core Services for Aging Services Network Funding

The Aging and Disability Services Division (ADSD) has agreed upon nine core services with its aging services network of grantees, deemed to be most crucial in helping to prevent institutionalization. These services, which are listed below in alphabetical order, are given priority when funding decisions are made to disperse the grant funds to the aging services network.

1. Adult Day Care: provides planned care for dependent adults in a supervised setting during some portion of a day.
2. Aging and Disability Resource Center (ADRC): provides information, assistance and access into long-term support systems.
3. Case Management: a person-centered process by which individual needs are identified, and services to meet those needs are located, coordinated, and monitored.
4. Home Care [now Homemaker]: provides services that can include housekeeping, grocery shopping, advocacy and other non-medical, in-home assistance.
5. Legal Assistance: includes legal counseling and/or representation in civil matters involving housing, consumer rights, health care/public benefits, estate planning and wills, and guardianships.
6. Personal Emergency Response System (PERS): a personal transmitter with an alert button that is worn on the wrist or around the neck. Another PERS service is a volunteer or computer-generated telephone reassurance program.
7. Respite Care: a non-medical service that provides a caregiver the opportunity to take some time away to do other things while a qualified, temporary caregiver attends to the person needing care.
8. Senior Companion: provides companionship activities for individuals in their home. Companions may also accompany the client and provide transportation to access services outside of their home.
9. Transportation Services: provides safe transportation for access to needed services including meals, medical appointments, social services, adult day care, shopping and socialization.

FY 2016 Funding By County All Funding Sources
